README

(The assignment has been done in pairs. Members: Ishwar Venugopal [1906084], Shreya Jadhav [1702121])

The python program files for each part of the assignment are as follows:

1) Question 4: Task 1: *Task_1.py*

2) Question 4: Task 2: *Task_2.py*

3) Question 4: Task 3: *Task_3.py*

4) Question 4: Task 4: *Task_4.py*

All these files can run with the following simple command:

python3 filename

Note: While running the programs, please ensure that the .txt files are in the same working directory.

Also, it is assumed that the python compiler is already equipped with all the packages used in the program, namely: nltk, pandas etc. If not, kindly install it from the command prompt using the following command:

pip install packagename
